PROFESSIONAL SUMMARY:

- Excellent communication skills, and good attention to details.
- Responsible for creation of **role based** access policies & risk profiles for associated applications.
- Being innovative in creating reusable patterns, frameworks and components for **Scalable.**
- Enterprise quality solutions, utilizing a variety of technologies.
- Hands-on experience in writing and reviewing requirements, architecture documents, test plans, design documents, quality analysis and audits.
- Strong sense of ownership, ability to work independently, and have strong communication skills.
- Experience with Web Development, **Amazon Web Services**, **JavaScript** and the Nodejs.
- Installation **Windows IIS** on **ec2.**
- Web based development experience utilizing Nodejs.
- Excellent experience with nodejs development under **Linux** OS (Ubuntu, Windows).
- Ability to learn quickly and an interest in using distributed computing to solve complex problems are highly desired.
- Database technology (MYSQL, Postgresql, Mongo dB).
- Experience with Rest API Development AWS API Gateway.
- Strong understanding of Agile and Scrum Software Development Life Cycle Methodologies.

- Good knowledge of web services with protocols **SDK, FTP, HTTP, HTTPS and REST.**

PROFESSIONAL EXPERIENCE:

July 2021-Present   **AWS Admin**   **Adaro solution private Limited**

Responsibilities:

- AWS architectures that meet the requirements of the organization. This involves selecting appropriate AWS services, defining network configurations, security measures, and scalability options.
- Monitor the AWS environment and its resources to identify performance issues, bottlenecks, and anomalies. Configure monitoring tools, set up alerts, and optimize resource utilization to ensure efficient operation and cost-effectiveness.
- Utilize hands-on experience with AWS platform to manage and maintain various services, including IAM, VPC, API Gateway, EC2, ELB, CDN, S3, Route 53, CloudFormation, Dynamo DB, Auto Scaling, Elastic Beanstalk, CloudTrail, CloudWatch, and security measures.
- Apply deep understanding of AWS services to develop serverless applications and automation services, ensuring efficient and reliable cloud infrastructure.
- Write code in the preferred programming language, such as Node.js for backend development, and use AWS APIs, CLI, and SDKs to seamlessly integrate and optimize multiple AWS services.
- Take ownership of automating cloud infrastructure components using CloudFormation, streamlining deployment processes and enhancing scalability.Provisioning of AWS resources, including setting up virtual machines, storage, databases, networking components, and other infrastructure elements required for the organization's applications and systems.
- Design and implement backup and disaster recovery strategies to protect critical data and ensure business continuity. This may involve setting up automated backups, replicating data across multiple regions, and testing recovery procedures.
- Optimize costs by monitoring resource usage, identifying cost-inefficient resources, and implementing strategies to minimize expenses. This includes rightsizing instances, leveraging AWS cost optimization tools, implementing reserved instances, and analyzing billing reports.
- Responsible for launching **EC2** instances using amazon web services (Linux/windows) and configuring launched instances with respect to specific application and region.
- Installed apps on **EC2 instances** and configured the **storage on s3 bucket**.

- Creating new User **IAM Based policies** to provide specific access to new join.
- Design, implement and maintain all **AWS infrastructure** and **services** within a managed service environment.
- Created Lambda function in Node.js to automate the initiation and termination of web servers.

o **Technical Skills**

o	**Nodejs**	Skillful
o	**Microsoft Office**	Skillful
o	**SQL**	Skillful
o	**MySQL**	Experienced
o	**Python**	Beginner
o	**JavaScript**	Skillful
o	**Git**	Skillful

o	**AWS**	Experienced
o	**HTML & CSS**	Skillful
o	**Nginx & Apache**	Skillful
o	**Linux**	Skillful
o	**Software Development**	Skillful

CERTIFICATES:

March2023-Jun 2026	**AWS Certified Solution Architect-** **Professional certification,** Pearson VUE
April 2023-April 2024	**NGINX Web Server, Udemy**
May 2023-May 2024	**Apache Web Server, Udemy**
May 2023-May 2024	**GitHub Basic, Udemy**
April2023-April 2024	**Install Nginx, Php, MySQL, Ssl, WordPress On Ubuntu, Udemy**

EDUCATION:

July 2012-Jun 2015	**Graduate, Chaudhary Charan Singh University**
